

**Academic Year: 2023- 2024**

**Measuring method of the level of attainment of POs, PSOs and COs**

To evaluate the level of attainment of Program Outcomes (POs) and Program Specific Outcomes (PSOs) we analyze the final semester results of our students after the completion of the Program. However, the Course Outcomes (COs) are measured through two Sessional examinations held centrally throughout the college and in a continuous basis of evaluation process through daily homework and class interactions. For a robust and transparent process of measuring the attainment of POs and PSOs we adopted the following rubrics.

**Rubric 1: It is used for the quantitative measure of the attainment of POs, PSOs.**

Category	Unsatisfactory	Competent	Proficient	Distinguished	Target
Program/	<70%	70-80%	80-90%	90-100%	100%
Specific Program/ department	Students passed the final examination	Students passed the final examination	Students passed the final examination	Students passed the final examination	Students passed the final examination

**Rubric 2: It is used for the qualitative as well as quantitative measure of the attainment of POs, PSOs.**

Category	Initial	Moderate	Progressed	Developed	Highly Developed	Target No. 1	Target No. 2
Program/ Specific program/ department	Students obtained 60-70% marks after completion of the program	Students obtained 60-70% marks after completion of the program	Students obtained 70-80% marks after completion of the program	Students obtained 80-90% marks after completion of the program	Students obtained above 90% marks after completion of the program	Students are pursuing Higher education	Students are employed

For the academic session 2023-2024, we have prepared the following rubrics for all the programs, specific programs/departments and the same have been analyzed using graphical representations.

## Measure of Program Outcome 2023-2024

### (a) Rubric 1:

Category	Unsatisfactory <70%	Competent 70-80%	Proficient 80-90%	Distinguished 90-100%	Target 100%
B. A. Major (BA)			✓		
B. Sc. Major (BSC)				✓	
B. Com. (BCOM)		✓			
M. Sc. (MSC)	✓				

The POs for the academic year 2023-2024 is shown in the rubrics above. From the rubric it is clear that the BA, BSC and BCOM programme has achieved distinguished level of outcome, whereas the MSC programme need to improve the programme outcome.

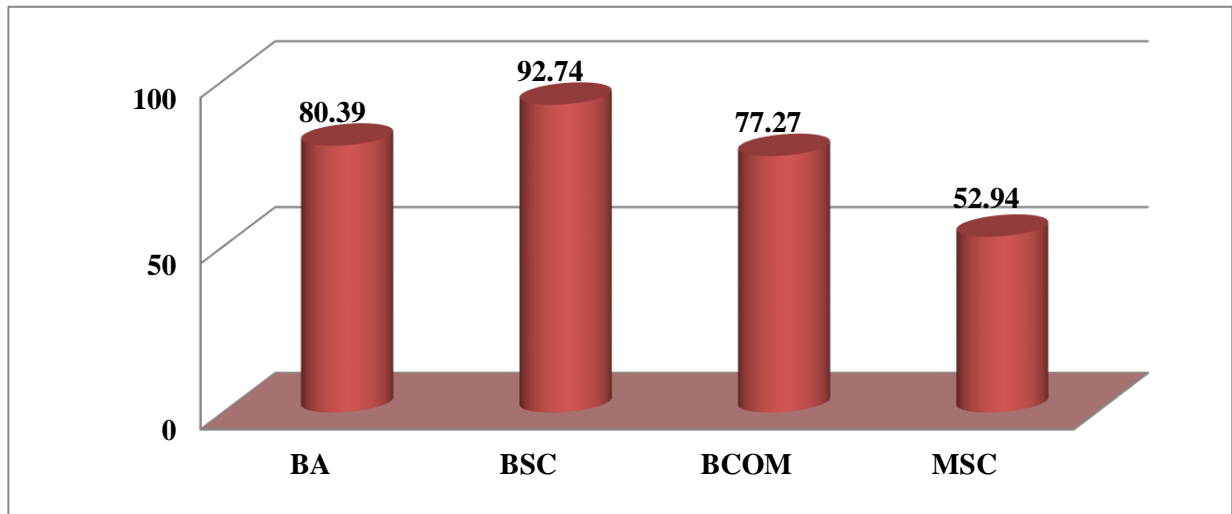

Figure: 1

### (b) Rubric 2:

Category	Initial ≤60%	Moderate 60-70%	Progressed 70-80%	Developed 80-90%	Excelled ≥90%
BA	1.2	38.5	53.3	7.1	0.0
BSC	0.0	0.8	40.3	48.7	10.1
BCOM	0.0	2.0	52.0	40.0	6.0
MSC	0.0	0.0	66.7	33.3	0.0

In this rubric we have represented the quality of our students passed in each programme. We have shown the progress of the students in the prescribed programs in Figure 2.

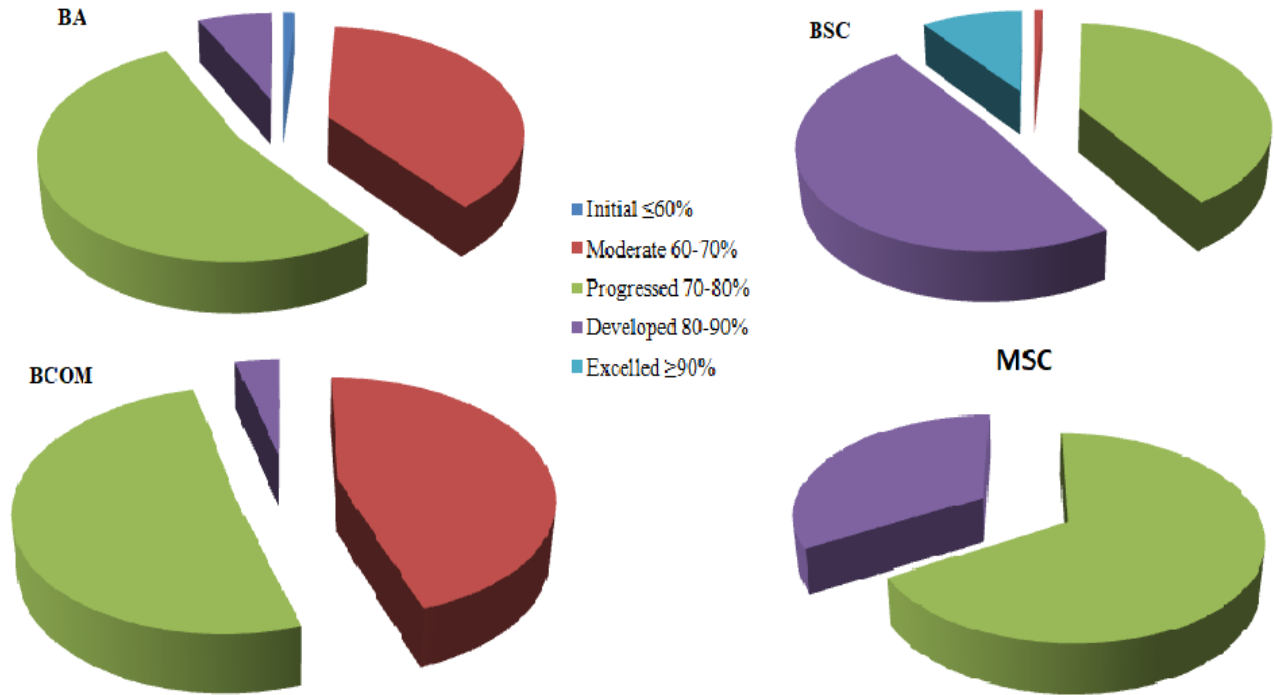

Figure 2

From figure 2 it is clear that BA, BSC, BCOM and MSC programme has shown developed outcome. The BSC programme also achieved the excelled category.

**Measure of Program Specific Outcome 2023-2024**

**(a) Rubric 1:**

Category	Course Code	Unsatisfactory <70%	Competent 70-80%	Proficient 80-90%	Distinguished 90-100%	Target 100%
BA Assamese	ASMM	✓				
BA Economics	ECOM	✓				
BA Education	EDNM			✓		
BA English	ENGM				✓	
BA Hindi	HINM			✓		

BA Philosophy	PHIM				✓	
BA Political Science	PSCM			✓		
BSc Botany	BOTM				✓	
BSc Chemistry	CHMM			✓		
BSc Electronics	ELTM			✓		
BSc Mathematics	MTHS					✓
BSc Physics	PHYM			✓		
BSc Zoology	ZOOM					✓
BCom	COMM		✓			
MSc in Physics	MSPH	✓				
MSc in Life Science	MSLS	✓				

In the rubric we have shown the PSOs for different programs. According to this rubric four of the specific programs have achieved the target and three are close to achieve it. However, three specific programs need to improve. In figure 4, the level of attainment of PSO is represented graphically.

## Measure of Course Outcome 2023-2024

The CO is measured through two sessional exams and daily homework/ assignments. The result of the sessional exam is uploaded to the **ERP** system. Based on the first sessional examination's result remedialclasses are

Roll Number	Student Name	Electricity and Magnetism (C3) (12.00/30.00 - PHY C3)	Waves and Optics (C4) (12.00/30.00 - PHY C4)	Differential Equations (GE 2.1) (16.00/40.00 - MTH GE 2)	Percent (%)	Result
